Annex II

Explanation of templates for the 2010 reporting round

To assist Parties in their emission reporting, reporting templates and instructions have been made available on the website of the EMEP Centre on Emission Inventories and Projections (CEIP) at <http://www.ceip.at/reporting-instructions/>

The templates are based on the Guidelines for Reporting Emission Data the Convention on Long-Range Transboundary Air Pollution (ECE/EB.AIR/97), adopted by the Executive Body in 2008, and their annexes (available from the CEIP website at <http://www.ceip.at/reporting-instructions/list-of-annexes-2010/>).

Annual reporting

National Totals and NFR Sector Emissions for main pollutants, PM, HMs and POPs:

Templates (table 1) for reporting national totals and sector emissions for main pollutants, particulate matter, heavy metals and POPs (ECE/EB.AIR/97, annex IV, Section D, Table IV 1) for the source sectors in the nomenclature for reporting (NFR) are available for the years 1980 (1990 for HMs and POPs and 2000 for PMs) to 2005. **Please use table 1 also for reporting activity data.**

- **Aggregation of NFR codes to be used when preparing gridded and LPS data (GNFR)** is provided in annex III.
- **Informative inventory report (IIR):** Template for preparing the IIR is provided in annex VI. In addition, please provide an English summary of key information on the inventories, including reasons for recalculations, on new emission sources and explanation of trends and the implementation of country specific methods and data.
